

► **INVITATION TO THE FINAL RECOMMEND CONFERENCE**  
11<sup>th</sup> – 12<sup>th</sup> September 2014, Varna (Bulgaria)

Dear expert,

On behalf of the RECOMMEND project Lead Partner (the Regional Government of Lower Austria. Office Department of environmental and energy economics) I am pleased to invite you to the Final Conference of the INTERREG IVC project RECOMMEND ([www.recommendproject.eu](http://www.recommendproject.eu)).

**A 2-day-conference**  
**on information exchange and learning about the latest recommendations & trends**  
**in the field of eco-management and eco-innovation!**

Over the last three years, the RECOMMEND project team has been providing enterprises and public authorities information on instruments and funding schemes for new ecological measures in the public & business sector. The RECOMMEND partnership strongly believes that improving eco-management and eco-innovation at a regional level will help to meet the current environmental and economic challenges at the European level. This conference - organized by the Bulgarian RECOMMEND project partners (Union of Bulgarian Black Sea Local Authorities & Public Environmental Center for Sustainable Development)- will showcase policy recommendations and lessons learnt resulting from the project work. Furthermore it will provide a valuable input to the preparation for future interregional project cooperation. There will be many opportunities to meet good practice owners to discuss and to get inspired for future activities!

**3 reasons why you should attend our Final RECOMMEND Conference:**

**1. Find out about new policy developments and trends.**

We will organise a workshop on the brand new topic “Circular economy” and a round table on the topic “Covenant of Mayors”. There you will gain the latest information on both topics which will be a valuable input for your future activities on regional, national or international level.

**2. Learn from others & make contacts**

What better way to overcome challenges your region is facing than by seeing exactly how others have overcome the same hurdle? Regional experts on eco-innovation & eco-management from different European regions will attend our Final Conference. Our event will be a perfect place to meet like-minded people to share ideas and to make contacts with potential prospects.

**3. Get inspired**

We plan lots of interesting occasions where you can discuss new ideas for future project cooperation in the field of eco-management & eco-innovation which might place the cornerstone for future international cooperation. Be part of this Think Tank!

**You are more than welcome to join our conference**  
**11<sup>th</sup> -12<sup>th</sup> September 2014**  
**Varna / Bulgaria**
